

The graph displays three loss curves over 5000 epochs. The x-axis is labeled 'Epoch' and ranges from 0 to 5000. The y-axis represents the loss value. The 'Baseline loss curve' is a grey, noisy line that remains at a high, stable level. The 'Model 0 loss curve' is a blue line with circular markers that starts at a high loss, drops sharply around epoch 1500, and then continues to decrease more gradually. The 'Ensemble data loss' is another blue line with circular markers that follows a similar downward trend but remains slightly higher than the Model 0 loss curve after epoch 2000.

Epoch	Baseline loss curve	Model 0 loss curve	Ensemble data loss
0	High	High	High
1000	High	High	High
1500	High	Medium-High	Medium-High
2000	High	Medium	Medium
2500	High	Low-Medium	Low-Medium
3000	High	Low	Low
3500	High	Very Low	Very Low
4000	High	Very Low	Very Low
4500	High	Very Low	Very Low
5000	High	Very Low	Very Low
