

The graph illustrates the performance of a baseline model versus an ensemble model over 5000 epochs. The baseline loss curve (grey) remains relatively flat and noisy, indicating stable but not optimal performance. The model 0 loss curve (blue) shows a general downward trend, suggesting improvement over time. The ensemble data loss (blue line with markers) starts at epoch 500 and shows a significant and steady decrease in loss, reaching the lowest point by epoch 5000.

Epoch	Baseline loss curve	Model 0 loss curve	Ensemble data loss
0	High	High	-
500	High	High	High
1000	High	Medium-High	Medium-High
1500	High	Medium	Medium
2000	High	Medium-Low	Medium-Low
2500	High	Low-Medium	Low-Medium
3000	High	Low	Low
3500	High	Low	Lower
4000	High	Low	Lower
4500	High	Low	Lower
5000	High	Low	Lowest
