

The graph displays three loss curves over 5000 epochs. The 'Baseline loss curve' (grey) remains relatively flat and noisy around a high loss level. The 'Model 0 loss curve' (blue) shows a sharp decrease in loss starting around epoch 1000, reaching a stable, lower loss level by epoch 2000. The 'Ensemble data loss' (blue) also shows a sharp decrease in loss starting around epoch 1000, reaching a stable, lower loss level by epoch 2000, and then fluctuates slightly around that level.

Epoch	Baseline loss curve	Model 0 loss curve	Ensemble data loss
0	High	High	High
1000	High	High	High
2000	High	Low	Low
3000	High	Low	Low
4000	High	Low	Low
5000	High	Low	Low
