

The graph displays three loss curves over 5000 epochs. The 'Baseline loss curve' is a noisy gray line that remains at a high, stable level. The 'Model 0 loss curve' is a blue line with circular markers that starts at a high loss and decreases steadily to a low loss by epoch 5000. The 'Ensemble data loss' is a blue line with circular markers that starts at a high loss, remains relatively flat until epoch 1000, and then decreases to a low loss by epoch 5000.

Epoch	Baseline loss curve	Model 0 loss curve	Ensemble data loss
0	High	High	High
1000	High	High	High
2000	High	Medium	Medium
3000	High	Low	Low
4000	High	Very Low	Very Low
5000	High	Lowest	Lowest
