

The graph displays three loss curves over 5000 epochs. The x-axis is labeled 'Epoch' and ranges from 0 to 5000. The y-axis represents the loss value. The 'Baseline loss curve' is a grey line that remains relatively flat and noisy around a loss of 0.5. The 'Model 0 loss curve' is a blue line that starts at 0.5, peaks at approximately 0.6 at epoch 1000, and then decreases to about 0.1 by epoch 5000. The 'Ensemble data loss' is also a blue line that starts at 0.5, peaks at approximately 0.6 at epoch 1000, and then decreases to about 0.1 by epoch 5000, following a similar trend to the Model 0 loss curve but with slightly different values.

Epoch	Baseline loss curve	Model 0 loss curve	Ensemble data loss
0	0.5	0.5	0.5
1000	0.5	0.6	0.6
2000	0.5	0.4	0.4
3000	0.5	0.3	0.3
4000	0.5	0.2	0.2
5000	0.5	0.1	0.1
