

The graph displays three loss curves over 5000 epochs. The 'Baseline loss curve' (grey) is highly volatile and remains at a high loss level. The 'Model 0 loss curve' (blue line with dots) shows a significant decrease in loss, starting high and ending low. The 'Ensemble data loss' (blue line with dots) also shows a decrease in loss, starting high and ending low, but it is slightly higher than the 'Model 0 loss curve' after epoch 1000.
